FOR STUDENTS IN ZURICH

Borrow what the weather asks for.

A fan during a heat wave, a heater in a draughty flat, a wet vacuum when the cellar floods. Students lend to each other instead of buying things they need twice a year. Lending earns points, borrowing spends them.

Filter by phenomenon

Pick one or more. Items can belong to several phenomena.

Heat wave 5 | Cold snap 3 | Heavy rain 5 | Storm 4 | Snow and ice 2 | Drought 2 | Power outage 5

All phenomena

Everything the community currently offers. Pick a phenomenon above to narrow it down.

18 items available

Heat wave — 2 pt per day

LED lanterns, set of 4

Marco · Altstetten
Available: all year

Small item — Request

Nothing suitable for the phenomenon you picked? Post what you need and for which days. — Post a request

How it works

1

Offer

During onboarding you list what you would lend, which phenomena it helps with, and when it is free.

2

Request

Filter by phenomenon, pick an offer and a period, or post a request if nothing fits.

3

Keep the balance

Points per day by size: small 1, medium 2, large 3. Lending adds them, borrowing deducts them. Everyone starts with 10.

Prototype for a student project. All names, items and point values are examples. Phenomena are data, so more can be added without code changes.

ONBOARDING · STEP 1 OF 2

What can you lend?

List what sits unused in your flat. For every day someone borrows it, you earn points you can spend later.

Item

e.g. fan heater 2000 W

Which phenomena does it help with?

Pick all that apply. The list is maintained by us, so new phenomena can be added later.

- [ ] Heat wave
- [x] Cold snap
- [ ] Heavy rain and flooding
- [ ] Storm
- [ ] Snow and ice
- [ ] Drought and water shortage
- [x] Power outage

Size category and point value

- ( ) Small · 1 pt per day
- (•) Medium · 2 pts per day
- ( ) Large · 3 pts per day

Cold snap 2 pts per day

Also: Power outage

Photo of the item

Fan heater 2000 W

Sven · Höngg

Available: November to February

When someone borrows it

Three days of fan heater earn you 6 points. That is three days of a floor fan next summer.

Step 2 of onboarding

Pick the phenomena you want to be notified about, so you hear when a neighbour needs something you have.

What do you need, and when?

Nothing suitable among the offers? Post a request. Whoever owns the item gets back to you.

New request

I need

e.g. fan heater

Phenomenon

Cold snap

From

tt.mm.jjjj

Until

tt.mm.jjjj

Neighbourhood

Hottingen

Note (optional)

e.g. can pick it up after 6 pm

You need enough points for the whole period. You currently have 11.

How we count

Small (boots, lantern)	**1 pt per day**
Medium (fan, heater)	**2 pts per day**
Large (air conditioner, vacuum)	**3 pts per day**

The borrower pays, the lender receives the same amount. That keeps the community balanced and nobody only takes.

Currently out

Floor fan from Lea, due back on Friday. Two days at 2 points each.

Why this helps

An item that is already promised to someone else cannot be requested for the same days, and everyone sees when it is due back.

This screen is the single nice-to-have in our tender. Sprints 1 and 2 are accepted without it.
